

Taiso Performance Girls

This is a new program designed for our upper level recreational girls. Our goal is to improve their skill level, but also to give these athletes the opportunity to create routines on the different gymnastics events. We will also give the athletes an opportunity to perform their routines in gymnastics displays. They will work as individuals and in group performances. Ultimately, we hope this group will have a great time in the sport of gymnastics!!

This group is by invitation only. Families will be given a code that will allow them access to registration portal.
